

# Gadgets and Gizmos

My personal reviews of gadgets and gizmos I've

been able to get my hands on or have been desperately trying to get my hands on. Cheap, expensive, free download or otherwise, anything here is listed in a chronological timeline. Enjoy, and use it to your benefit!

## ● ● ● Designer home for cats

Why must cat beds and scratching posts reveal their purpose at first glance? Those who like to surround themselves with unusual design will love the products from cat-interiors.de, a small yet high quality collection of "furniture showpieces" which can be combined perfectly with a modern living environment.

RONDO was designed as furniture for both action and rest. Cats can fulfill their desire to play, sharpen their claws on the special scratch covers, sleep and climb.

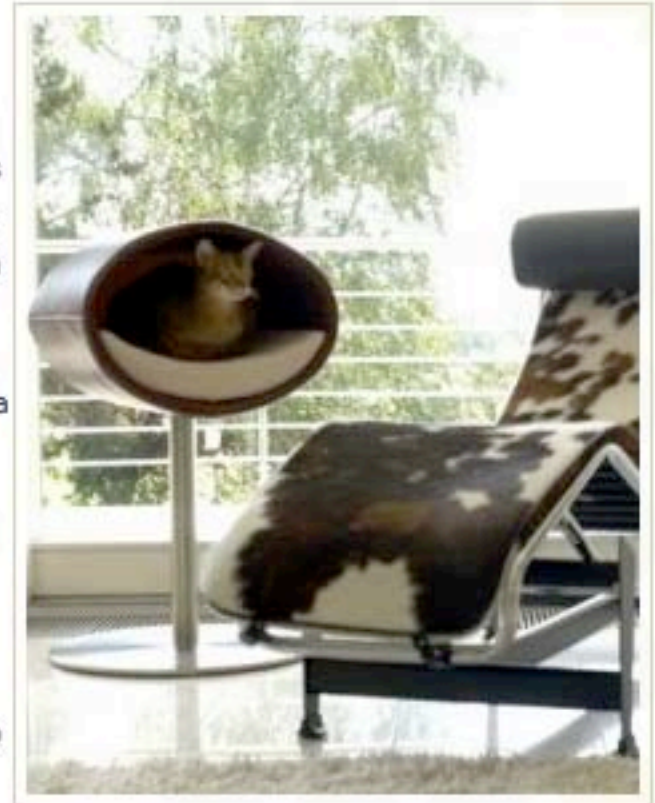

RONDO STAND (see image) can be easily erected anywhere. Thanks to the three different designs in felt, wicker and leather, it can be integrated into any sophisticated living environment. I ordered the leather version as it fits my interior best.

RONDO STAND cushions are available in four different colours. The scratch covers made from hard wearing needle felt are available in two colours. Replacements for worn cushions and scratch covers can be purchased individually at a later date. The cushion covers are machine washable at 40° C and suitable for tumble drying.

The standing base; made from brushed stainless steel is designed so that there is no danger of it tipping over, even when used by larger, heavy cats.

For more information and current prices, follow the article link. Got one at home? Share your experience in the comment section below!
